re: Kentucky Utilities rate increase

I am objecting to the proposed rate increase by KU. Even a "conservative" increase of 9.57% is excessive. What else has increased by this amount? Our savings are not collecting anything to speak of. Those of us on fixed incomes and those with families are struggling to keep up with everyday bills. Electricity is necessary, therefore it seems the utility company thinks they can increase the rates since it is something we all depend on.

I appreciate your attention and consideration and ask you not allow this exorbitant proposal.

Thank you.
